Contract Requirements

SECTION B

The intent of this solicitation is to obtain heavy equipment (dozers, excavators, and tractor plows; including transport of this heavy equipment to/from the incident) and transports as defined in this solicitation, for local, Regional, and Nationwide fire suppression, all-hazard incidents, and severity.

The Blanket Purchase Agreement resulting from this Request for Quote (RFQ) may be used by multiple State and Federal agencies.

Exhibit H contains requirements specific to the various State and Federal Agencies.

PRICING AND ESTIMATED QUANTITY

This solicitation will result in multiple agreements. The dollar limitation for any individual order is \$100,000.00. Since the needs of the Government and availability of Contractor's resources during an emergency cannot be determined in advance, it is mutually agreed that, upon request of the Government, the Contractor shall furnish the resources listed herein to the extent the Contractor is willing and able at the time of order. Due to the sporadic occurrence of Incident activity, the placement of any orders IS NOT GUARANTEED.

Proposed rates shall include, but are not limited to, labor, equipment, operating supplies, materials, State and Federal taxes (including workers' compensation costs), insurance coverage, transportation costs, overhead, and profit, and any costs/fees necessary to ensure equipment/ operators meet(s) the specified standards. Included in the daily rate is the cost for the contractor provided support truck for fuel, maintenance, and operator transportation as well as the Contractor's representative attendance at the operational period briefings. Contractors shall be prepared to operate up to 16 hours per day. The Finance Unit will work in tandem with Fire Operations to ensure contract resources are not worked more than 16 hours. Working more than 16 hours per day violates the 2:1 work/rest safety guidelines and shall be mitigated. When working an average of more than 16 hours, a Contractor may request to negotiate an equitable adjustment through the Procurement Unit Leader or Contracting Officer. Shifts exceeding 16 hours shall be approved by the Incident Commander. Transportation rates for mobilization and de-mobilization shall be provided as a minimum daily guarantee and mileage.

Resources furnished under this agreement may be operated and subjected to extreme environmental and/or strenuous operating conditions which could include but is not limited to unimproved roads, steep, rocky, hilly terrain, dust, heat, and smoky conditions. As a result, by entering into this agreement, the contractor agrees that what is considered wear and tear under this agreement is in excess of what the resource is subjected to under normal operations and is reflected in the rates paid for the resource.

NOTE: Offers may be submitted on one or all line items. A rate must be quoted for Mobilization/Demobilization and Transport Minimum Daily Guarantee. Failure to offer a quote in these two columns will result in the quote being rejected. You are responsible for getting your heavy equipment to the incident. You will be paid the greater of the Mileage or the Minimum Daily Guarantee for mobilization and demobilization of loaded equipment to and from the incident, or the greater of the Mileage or the Minimum Daily Guarantee. If the operator for the Transport is the same operator for the heavy equipment the rate for the

Minimum Daily Guarantee will be paid at 65% of the rate specified in the schedule above or the mileage rate, whichever is greater.

NOTE: An operator must be provided for all Transport items.

BASIS OF AWARD

The Government intends to award X number of Agreements, however, awards will only be made to those quoters offering a reasonable price and resources that are technically acceptable. Proposed pricing for ALL line items will be evaluated for reasonableness. Reasonable price technically acceptable will be the basis for the best value determination. See Section E.2.

METHOD OF AWARD - CASCADING SET-ASIDE PROCEDURE: (User Note: CO's shall also review this acquisition for offering under the 8(a) program (Ref. Stand-alone safety glass does not provide equivalent protection to wire mesh, however it may be used as part of the window glazing system.

 Polycarbonate windows are not "glass" and may be acceptable as a stand-alone window guard. Any machine cab meeting ISO 8084 or SAE 1084 fulfills this requirement. The protective canopy shall be constructed to protect the operator from injury due to falling trees, limbs, saplings or branches which might enter the compartment side areas and from snapping winch lines or other objects. The rear portion of the cab shall be fully enclosed with open mesh material with openings of such size as to reject the entrance of an object larger than 2 inches in diameter. The covering shall be affixed to the structural members so that ample clearance will be provided between the screen and the back of the operator and shall provide maximum rearward visibility. Open mesh shall be extended forward as far as possible from the rear corners of the cab sides to provide the maximum protection against obstacles, branches, etc., entering the cab area. Deflectors, which may be part of the cab, shall be installed in front of the operator area to deflect whipping saplings and branches. Deflectors shall be located so as not to impede visibility and access to the cab.

Modification of factory ROPS/FOPS (Cutting/Welding) and any aftermarket ROPS/FOPS requires certification to ISO 3471, ISO 8082, or SAEJ 1040.
- Operator Protection. Shall meet all applicable Federal and State logging safety standards and must have operator protection, such as a Forestry cab package with wire mesh or safety glazing that provides equivalent protection. Stand-alone safety glass does not provide equivalent protection to wire mesh, however it may be used as part of the window glazing system. Polycarbonate windows are not "glass" and may be acceptable as a stand-alone window guard. Any machine cab meeting ISO 8084 or SAE 1084 fulfills this requirement. The protective canopy shall be constructed to protect the operator from injury due to falling trees, limbs, saplings or branches which might enter the compartment side areas and from snapping winch lines or other objects. A. VHF-FM Mobile Radio

1. A VHF-FM two-way mobile radio, with a matched broadband antenna (Antenna Specialists ASPR7490, Maxrad MWB5803, or equivalent), shall be installed. The radio shall provide selection of either wideband (25.0 kHz) or narrowband (12.5 kHz) channel spacing on each channel and operate from 148 MHz to 174 MHz. The radio shall be frequency-synthesized, equipped with a CTCSS sub-audible tone encoder having a minimum of 32 selectable tones meeting the current TIA/EIA-603 standard, and

- 3. The use of appropriate VHF-FM handheld radios with suitable output power booster units is permissible. See the below VHF-FM Handheld Radio section for handheld radio requirements.

Note: It is highly recommended that a programming "cheat sheet" accompany the dozer.

B. VHF-FM Handheld Radio

- 1. A VHF-FM two-way handheld radio operating from 148 MHz to 174 MHz shall be carried by the operator. The radio shall provide selection of either wideband (25.0 kHz) or narrowband (12.5 kHz) channel spacing on each channel. The radio shall be frequency-synthesized, equipped with a CTCSS sub-audible tone encoder having a minimum of 32 selectable tones meeting the current TIA/EIA-603 standard, and develop a minimum of 1 watt nominal output power but no more than 10 watts nominal output power. Modified radios or Family Service Radios (FRS) are not acceptable.
- 2. Transceivers shall be set to operate in the analog narrowband mode unless local requirements dictate otherwise. All radios must have the ability to be programmed in the field by the radio operator without the aid of a computer or the services typically found in a radio shop.
- 3. When the above VHF-FM Mobile Radio requirement is met with the use of a VHF-FM Handheld Radio with output power booster, that handheld VHF-FM radio may be used to comply with this section as long as the handheld radio complies with all specified VHF-FM Handheld Radio requirements. The VHF-FM handheld radio must be removable and still operate as a handheld radio.
- 4. Handheld Radio Batteries. At least two fully charged batteries per radio are required at the beginning of each shift. These contractor provided batteries must operate the handheld radio throughout the shift. It is highly recommended that all handheld radios utilize an AA alkaline battery clamshell. A source of 115 AC power may not be locally available for rechargeable batteries.

Note: It is highly recommended that a programming "cheat sheet" accompany the handheld radio. Additionally, the handheld radio should have a carrying case or chest pack carrier.

C. Radio Headset

- 1. Any radio used by an operator while the equipment is in operation shall utilize a headset with a boom mic (Field Support Services (www.helifire.com) KS-H3340 or equivalent) with PTT switch which connects to the dozer's VHF-FM radio. The headset shall not impede the safe placement and security of the dozer operator's PPE (i.e. hardhat).
- 2. The headset shall receive audio from the equipment's radio. The headset shall provide sufficient volume from the equipment's radio to be easily discernible while the equipment is in normal operation.
- 3. The headset's boom mic shall provide the equipment's radio with transmitter microphone input. Transmitted microphone audio output shall be clear and easily understandable.
- 4. The headset shall utilize a radio PTT switch that activates the equipment's radio (such as the Field Support Services (www.helifire.com) SPH-EPH-36 for B/K type radios or equivalent). The PTT switch should clip to the operators clothing.

- 5. Radio Batteries: At a minimum, two batteries per radio are required. Clamshell 1.5V AA would have to be provided by the contractor to recharge other types of batteries. Due to the explosive nature of their chemistry Lithium Ion batteries are not acceptable.
- 6. The Contractor shall comply with all National Telecommunications and Information Administration (NTIA) rules and regulations when using Federal Agency frequencies and with all Federal Communications Commission (FCC) rules and regulations when using State Agency frequencies. The Contractor shall not use the fire fighting/incident frequencies for other than fire suppression activities. All Incident, Federal and State frequencies shall be removed prior to demobilization from the incident.

D.2.1.2.3 Excavators. In addition to D.2.1.2, excavators shall have:

- Operator Protection System. Shall have a factory canopy with deflectors installed in front of the operator area to deflect whipping saplings, branches and debris broken off by the action of the bucket or hydraulic thumb. Deflectors shall be located so as not to impede visibility and access to the cab but still protect the operator from frontal damage.
- Capability of operating at manufacturer's limitations (i.e., slope).
- Lighting (2 forward). Lights shall be mounted to the equipment in such a way to provide protection from damage and provide illumination beyond the bucket/thumb.
- Hydraulic thumb or clamshell. See D.23, Exhibit A for definition.
- 360 degree swing machines must have a factory canopy with deflectors installed in front of cab to deflect whipping saplings, branches and debris broken off by the hydraulic thumb. Deflectors shall be located so as not to impede visibility and access to the cab but still protect the operator from frontal damage.

D.2.1.2.4 Transports. In addition to D.2.1.2, transports shall have:

Heavy equipment transport operators are responsible for following Department of Transportation (DOT) standards while in transit and adhere to legal weights, laws and limits pertaining to the transport of heavy equipment while under hire. Transport operators may be required to transport loads of up to the maximum GVWR rating of the tractor- trailer combination on steep, poorly maintained roads. Operators should expect to drive on secondary roads with grades of up to 15 percent, with close radius switchbacks and road surfaces of natural material. Truck and trailer shall be capable of working on secondary Forest/Range roads with adequate tractor horsepower and trailer clearance to excel in this environment. Operators may haul dozers, road graders, excavators and logging equipment while under hire and must understand load securement and tractor-trailer limitations. Operator is responsible for meeting all State requirements, such as weight restrictions and hauling permits. All special permits are the responsibility of the Operator.

D.2.2 TRANSPORTATION

The Contractor is responsible for transporting the dozer/excavator/tractor plow to and from the incident. Transports shall have current Department of Transportation (DOT) certification and be of sufficient and legal weight rating to transport the equipment. Contractor is responsible for:

- Meeting all state and federal requirements, such as weight restrictions and hauling permits;
- All special permits;
- Providing all pilot cars when required by a permitting agency.

Equipment may not be unloaded immediately and the Contractor is responsible for all costs associated with the transport until the equipment is unloaded and the transport is released. The transport may be retained at the incident for the sole purpose of transporting the equipment that was originally ordered; the minimum daily guarantee will be paid until the transport is released. This must be documented on the shift ticket and in the Incident Action Plan. If there is no Incident Action Plan (i.e., smaller

incidents) approval by the Incident Commander is acceptable. If the contractor elects to keep the transport at the incident location after it is released by the government, no payment will be made.

IF THE TRANSPORT IS RETAINED BY THE INCIDENT FOR TRANSPORTING OTHER EQUIPMENT, THE COMPANY OWNING THE TRANSPORT MUST HAVE AN EXISTING AGREEMENT ISSUED UNDER THIS SOLICITATION (ITEMS 10, 11, AND/OR 12), AND MUST BE ORDERED WITH A SEPARATE RESOURCE ORDER NUMBER. THE POINT OF HIRE WILL BE THE INCIDENT.

FOR INITIAL ATTACK/SEVERITY, TRANSPORT IS REQUIRED TO REMAIN WITH THE EQUIPMENT.

The transport may be inspected in accordance with D.17. Transports not passing this inspection will be cause for the rejection of both the transport and heavy piece of equipment being hauled.

D.2.2.1 Tires shall have loading rating in accordance with the vehicle Gross Vehicle Weight Ratings (GVWR). All tires on the vehicles, which including the spare tire, if required, shall have sound sidewalls, body and tire tread depth of a minimum of 2/32 inch for rear tires and 4/32 inch for steering axle tires.

D.2.2.2 Prohibited Marking

Federal regulations prohibit the use of official agency shields or markings on private vehicles or property.

D.3 PERSONNEL REQUIREMENTS

All Contractor personnel shall comply with Exhibit F, Safety Standards. Contractors shall comply with the Fair Labor Standards Act when employing persons under 18 years of age (Ref. 29 CFR 570).

D.3.1 Training/Experience

Each person under this Agreement shall meet the following minimum requirements:

- 1. RT-130 Annual Fireline Refresher including fire shelter.
- 2. Commercial Drivers License (for transports, when required).
- 3. All operators shall be able to operate the equipment safely up to the manufacturer's limitations (i.e., experience working in steep terrain, timber, etc.)

The government reserves the right to verify training at any time for all operators.

D.3.2 ENGLISH SPEAKING REQUIREMENT

Communications between Contractor crew personnel and Government incident personnel is mandatory for safe and effective performance. Contractor's representative shall be able to proficiently communicate in English, in the language of the crew, and read and communicate the Incident Action Plan, Safety Alerts, etc. All radio communication on Government-assigned frequencies shall be in English.

D.4 EQUIPMENT RELIABILITY

The Contractor shall provide dependable equipment that meets all applicable state and federal laws relating to motor vehicles and equipment.

The Government reserves the right to conduct inspections at any time.

D.5 AVAILABILITY

The Contractor is responsible for maintaining their current status by informing their host dispatch center of their availability, or if available, self-status in the Resource Ordering Status System (ROSS). When contract resources are unavailable, the resources will not be eligible for dispatch under the Agreement.

D.6 ORDERING PROTOCOL FOR RESOURCES

This Agreement does not preclude the Government from using any Agency or Agency Cooperator owned resources before resources are mobilized under this Agreement.

The Contractor shall restrict calls to the host dispatch center only. Dispatchers will not provide information, such as "when or if a Contractor will be called for an assignment" or "status of other contractors."

D.6.1 DISPATCH PRIORITY

Each host dispatch center will give dispatch priority to the resource offering the greatest advantage (See D.6.2) BEFORE all other private resources not under Agreement with the following exceptions:

- a. For initial attack, dispatchers will follow the "closest forces" concept and utilize locally available resources according to agency and incident needs. The priority dispatch ranking will not be used during initial attack and Contractor resources may or may not be used.
- b. Tribal preference policy established within reservation jurisdiction.
- c. Government normally will dispatch resources in accordance with this protocol; however, the number of fire orders in process and actual fire conditions at the time of dispatch may require a deviation from normal procedures in order to respond effectively to such conditions. Any such deviation will be within the discretion of Government, and will not be deemed a violation of any term or condition of this Agreement.

Upon receipt of a resource order by a host dispatch center, Government Dispatchers will not hold the Contractor resources in reserve as a contingency force in a non pay status when that resource is available.

D.6.2 RANKING OF AWARDED EQUIPMENT FOR DISPATCH PRIORITY

Dozers/Excavators/Tractor Plows:

All resources on an awarded Agreement will be ranked on a priority dispatch list by Host Dispatch Zone or Geographic Area. Priority will be given to those small business concerns identified in Section B, Method of Award - Cascading Set-Aside Procedure. Within each small business program category, priority will be given as shown below. The minimum daily guarantee and mileage will not be considered in the ranking.

NOTE: For the above equipment there will be attributes identified on the priority dispatch list that may be required by the Government. These attributes will not be given points but if the attribute is specifically ordered by the Incident Management Team, a vendor that offers the attribute on their equipment shall be given preference for the order. The attributes are listed at the end of each resource category below and will be identified as Attribute, not given points.

Transports:

All resources on an awarded Agreement will be provided on a resource list to the Host Dispatch Zone or Geographic Area. Within each small business program category, as defined in Section B, Method of Award - Cascading Set-Aside Procedure, equipment will be dispatched based on the attributes that best meet the needs of the government.

Advantages

Dozers/Tractor Plows: Information on the following advantages must be submitted by the contractor with their quote. The following criteria have been developed to assess the advantages for dispatch priority, and each advantage is given a point value. The total points for each resource's advantage are then divided by the daily rate resulting in dispatch priority with the highest total advantage per dollar being ranked highest on the dispatch list. The following is a list of the advantages and associated points for each category. A complete breakdown can be found in Exhibit J. Separate priority lists will be generated for each Type of dozer and tractor plow.

Dozer (Type I)

- a. Horsepower 9 possible points
- b. Blade 6 possible points
- c. Winch 1 possible point

Dozer/Tractor Plow (Type II)

- a. Horsepower 9 possible points
- b. Blade 6 possible points
- c. Winch 1 possible point

Dozer/Tractor Plow (Type III)

- a. Horsepower 6 possible points
- b. Blade 6 possible points
- c. Winch 1 possible point

Attribute, not given points

- Ripper
- Grapple
- Low Ground Pressure

NOTE: These attributes will be listed on the priority dispatch list and if the incident specifically orders the equipment with this attribute, vendors offering that attribute will be given preference as they appear on the priority dispatch list.

Excavators: Price offered for the type of resource. The price will be based on the daily rate, with the lowest price being ranked highest on the dispatch list. Separate priority lists will be generated for each Type of excavator.

Attribute, not given points

- Clamshell Bucket
- Up Down Blade or Dozer Blade
- Steep Ground Excavator

NOTE: These attributes will be listed on the priority dispatch list and if the incident specifically orders the equipment with this attribute, vendors offering that attribute will be given preference as they appear on the priority dispatch list.

D.6.3 ORDERING PROCEDURES FOR RESOURCES

D.6.3.1 Following Agreement award, each host dispatch center will have an established priority dispatch list showing the resources located within their Host Dispatch Zone or Geographic Area. The Government intends to dispatch contractor resources (dozer, excavator, and tractor plow) based on this priority ranking for other than initial attack. Transports will be dispatched based on the attributes that best meet the needs of the government (Ref. D.6.2), and will not be ranked in a priority order.

D.6.3.2 If all contractor resources on the priority list are depleted within the Host Dispatch Zone or Geographic Area, orders will be placed utilizing established dispatch procedures.

D.6.4 INFORMATION REQUIRED WHEN PLACING ORDERS.

D.6.4.1 At the time of acceptance of the assignment, the following information will be given to the Contractor:

- a. Resource Order Number.
- b. Incident Order Number and Name of Incident.
- c. Date and time to report to incident.
- d. Descriptive location of the designated site where the Contractor shall meet a Government representative. A map, if available.
- e. Incident contact phone number for further information.
- f. Fire Code/Funding Code

Prior to departing for the incident, the Contractor shall provide to dispatch the complete name of each person dispatched with the resource, and the ETD and ETA from point of dispatch.

Dispatch offices may use a FAX or email to provide a hard copy of the resource order to the Contractor.

D.6.5 DISPATCHING PROCEDURES

D.6.5.1 When receiving a dispatch call, the Contractor shall confirm their availability and ability to meet specified timeframes. If the Contractor cannot be reached or is not able to meet the time and date needed, the dispatcher may proceed with contacting the next resource on the priority dispatch list. Contractor shall check in at the assignment at the time agreeat 1h contactie achj 0 -15 Td ()Tj 0

Management Handbook (IIBMH) (FSH 5109.34). The IIBMH can be found on the National Wildfire Coordinating Group's website using the following link: http://www.nwcg.gov/pms/pubs/IIBMH2/iibmh.pdf The Contractor is responsible for complying with all other current Federal, State and Local driving regulations.

D.6.7 LENGTH OF ASSIGNMENTS & CREW CHANGE OUT

Work/rest guidelines are in place to ensure the health and safety of employees. Contractors shall ensure that their personnel adhere to the work/rest guidelines (minimum 2:1 work to rest ratio (for every 2 hours of work or travel, provide 1 hour of sleep and/or rest)).

To mitigate exceeding work/rest guidelines and manage the days of rest, the Government has the option to:

- a. Request the Contractor to provide replacement personnel. Replacement personnel are subject to the work/rest guidelines and must arrive at the incident fully rested. The Government will not pay transportation cost for replacement personnel.
- b. Release resources after a 14-day assignment.
- c. With the Government's agreement, the contractor may choose to have their personnel remain at the incident base camp and not be placed on shift to allow proper rest. The time is not compensable when the Contractor is off shift in compliance with the length of assignment provisions. Refer to D.21.8.3(d).

D.6.8 DEMOBILIZATION

The Incident Commander will determine the priority of demobilization.

D.6.9 RELEASE

Once released to the host dispatch center, the Contractor shall not accept new resource orders directly, nor seek out reassignments. Any new orders will originate from the host dispatch center.

D.7 PROPERTY

D.7.1 ACCOUNTABLE, DURABLE, AND CONSUMABLE GOODS

- D.7.1.1 Accountable and durable property will not be loaned or exchanged at the incident. The Contractor shall arrive at the incident fully outfitted and prepared to perform under the terms of the agreement. If the resource, upon arrival at the incident or during the course of the incident does not have the required equipment or personal protective equipment, it will be considered noncompliant. The Contractor may be given 24 hours or a timeframe designated by a Government representative to bring the resource into compliance. (Refer to D.17, Incident Pre-Use Inspection and D.18, Noncompliance after Acceptance at Incident).
- D.7.1.2 Contractor will be charged for Consumable Goods supplied by the Government and used by the resource while Under Hire. The cost of all Consumable Goods, with the exception of those specifically listed below, shall be deducted from payment to the Contractor. At the Government's discretion, the Government may provide the following incidental consumable goods at no cost, if available: one-quart plastic canteens, plastic sheeting, replacement radio batteries and replacement headlamp batteries, as required while under hire.

Г	8 (INFORM	ATION TO BE	PROVIDED	BY CONTRACTO	R AT CHECK-IN

The Contractor shall carry a minimum of two copies	of the complete Agreement at all times.	The Contractor shall furnish a copy
of the complete Agreement to the Finance Unit.		

D.9 LAUNDRY SERVICE

If the Government provides a laundry service at the incident base camp, the Contractor may utilize the service at no cost.

D.10 CAMPSITE

A campsite may be provided. The Contractor shall provide sleeping equipment such as tents or shelters, sleeping bags, etc. If the Government cannot provide a campsite, an overnight allowance may be authorized. (See D.21.5 Remain Overnight Allowance (RON)).

D.11 COMMISSARY

D.12 TIMEKEEPING

Refer to D.21.9.2

D.13 CONTRACTOR'S REPRESENTATIVE

Unless otherwise designated, the operator(s) shall be considered the Contractor's Representative for this Agreement.

D.14 FIRST AID, MEDICAL COVERAGE AND EMERGENCY EVACUATIONS

D.14.1 The contractor is financially responsible for employee medical expenses and coverage. The Government may provide first aid at the incident at no charge to the contractor. Any other medical expenses incurred will be the responsibility of the contractor. If contractor personnel become ill or are injured and incident transportation is not available, the Government may evacuate or transport the injured/ill person(s) to a medical facility/hospital utilizing a commercial source (e.g. ambulance or air transport such as Lifeflight). Commercial transport costs will be the responsibility of the Contractor.

D.14.2 Contractor shall provide the operator(s) with an adequate supply of appropriate insurance forms, insurance ID card(s), and other necessary documents. Such documents shall accompany the injured/ill person(s) when the medical need arises.

D.15 VEHICLE CLEANING FOR NOXIOUS WEED CONTROL

The resource shall arrive at the incident or designated inspection point washed and free of noxious weed seeds. Frames and cross-members will be inspected and all debris collecting areas including belly pans, guards and coverings must be washed to alleviate the spread of noxious weed seeds and to protect against grease and oil soaked residues catching on fire in belly pans and skid plates. Heavy equipment operators shall manually clean tracks and belly pans before leaving project site.

While at the incident, the Government will normally provide cleaning facilities. If the Government requires use of commercial facilities, the Government will reimburse the Contractor for these costs based on written receipts.

D.16 PRE-AWARD

A pre-award inspection will not be done.

D.17 INCIDENT PRE-USE INSPECTION

All resources furnished under this agreement shall be in acceptable condition. The Government reserves the right to reject resources that are not in safe and operable condition. Prior to incident use or anytime the resource is under hire, the Government will perform inspections utilizing form OF-296 "Vehicle/Heavy Equipment Safety Inspection Checklist" to insure compliance with the Agreement requirements. The Contractor shall provide proof of insurance (cab card) and a current vehicle registration.

If the resource does not pass inspection at the incident or designated inspection station, it is considered noncompliant. The Contractor may be given 24 hours or time frame designated by Government representatives to bring the resource into compliance. If the resource does not pass inspection, no payment will be made for travel to the incident or point of inspection or return to the point of hire, or for the time that the resource was not available. Upon rejection, resource will be removed from the priority dispatch list until such time that the resource is brought into compliance and re-inspected at the government's convenience. Repeated failures at the pre-use incident inspection may be grounds for cancellation of the Agreement.

D.17.1 INSPECTION REPORTS. Copies of the incident inspection reports and related documentation shall be distributed as follows:

a. The original shall remain with the fire documents on Host Unit.

- b. A duplicate copy given to the Contractor.
- c. A duplicate copy shall be forwarded to the CO for all non-compliant resources.

D.18 NONCOMPLIANCE AFTER ACCEPTANCE AT THE INCIDENT

If the resource is released due to noncompliance, documentation shall be immediately forwarded, by the Incident Management Team to the Contracting Officer; and the resource will be removed from the priority dispatch list until such time that the resource is brought into compliance and re-inspected at the government's convenience (See D.21.8.3(c)). Repeated notices of noncompliance may be grounds for cancellation of the Agreement.

D.19 WORKMANSHIP

All work under this Agreement shall be performed in a safe manner to a professional standard. The goal of performance under this Agreement is the suppression of wildland fire and other emergency incident responses. The Incident Commander may release from an incident assignment any Contractor employee deemed incompetent, careless, or otherwise objectionable including violation of Harassment Free Workplace Policy (Exhibit C). It will be left to the discretion of the Incident Commander to demobilize an entire resource or to allow replacement of the noncompliant personnel. Documentation of the rationale for release will be provided to the CO subsequent to the action. Accordingly, the Contracting Officer may require, in writing, the Contractor remove from use under this Agreement, any employee found incompetent, careless, or otherwise objectionable including violation of Harassment Free Workplace Policy. The Contracting Officer may require other proof of mitigation. Misconduct may result in the suspension or cancellation of this Agreement.

If an employee or crew is terminated, quits, or otherwise is released from the incident for any reason, the Contractor is responsible for returning the employee(s) to the point of hire with a

departure time from the Incident Command Post (ICP) no later than 12 hours or time specified by a government official following such decision. The Contractor may, at their discretion, provide such transportation, or request the Incident Management Team (IMT) to arrange for the transportation with all transportation costs deducted from Contractor's payment. If the Contractor does not act in a timely manner (i.e., Contractor's employee(s) not departing from the ICP for return to point of hire within the specified time period), the IMT has authority to transport said employee or arrange for employee's transportation and to deduct all such transportation costs from Contractor's payment.

D.19.1 INCIDENT BEHAVIOR

It is extremely important that inappropriate behavior be recognized and dealt with promptly. Inappropriate behavior is all forms of harassment including sexual and racial harassment. HARASSMENT IN ANY FORM WILL NOT BE TOLERATED. Non-prescription unlawful drugs and alcohol are not permitted at the incident. Possession or use of these substances will result in the Contractor being released from the incident. During off-incident periods, personnel are responsible for proper conduct and maintenance of fitness for duty. Drug or alcohol abuse resulting in unfitness for duty will normally result in the Contractor being released from the incident. Sexual harassment is defined as unwelcome sexual advances, request for sexual favors, and other verbal or physical conduct of a sexual nature constitute sexual harassment when (1) submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment, (2) submission to or rejection of such conduct by an individual is used as the basis for employment decisions affecting such individual, or (3) such conduct has the purpose or effect of unreasonably interfering with an individual's work performance or creating an intimidating, hostile, or offensive working environment.

D.20 PERFORMANCE EVALUATIONS

The Contractor's performance will be documented on the Standard Contractor Performance Report (Exhibit E) which will be completed at the incident by the government representative supervising the work. This form is the only performance evaluation form that will be accepted by the Contracting Officer. The evaluator's signature shall be legible or printed on the form. If the supervising Government representative is released from the incident prior to the release of the resource, the government representative shall complete a performance evaluation prior to demobilization, for work the resource performed under their supervision. The evaluation will be input into the National Institutes of Health (NIH) Contractor Performance System (CPS) and will be used in past performance evaluations for future procurements and to monitor performance throughout the agreement year. Contractors must register in CPS, at http://cps.od.nih.gov. Once at the site, click on the "Contractor Information" tab; then click on "CPS Contractor Registration" to complete the registration. Registering will also enable you to review and respond to your performance evaluations.

D.21 PAYMENTS

Payments will be made in accordance with D.21.8.

When resources are ordered for severity assignments, the following payment will be made:

SEVERITY RATES

- Severity is paid at 75% of the daily rate for 10 hours or less, excluding meal breaks. For greater than 10 hours, including travel time, the full daily rate applies.
- If a resource is mobilized to an incident within the 10 hour severity period the payment will revert to the full daily rate. If the mobilization occurs outside the 10 hour severity period they will be released from their severity assignment and the suppression rates will be applied under the first and last day language of the Agreement. In no case shall the daily rate be exceeded.

Severity assignments are at the discretion of the Contractor to accept or reject. Rejecting a severity assignment will not effect placement on the priority list or preclude a Contractor from being offered a suppression assignment at full daily rate.

Severity assignments often are not associated with a formal incident base camp or have meals and lodging provided. If a base camp is not established, RON (see D.21.5) may or may not be authorized and is at the Government's discretion.

D.21.4 OPERATING SUPPLIES. Even though this agreement may specify that all operating supplies are to be furnished by the Contractor, the Government may, at its option, elect to furnish such supplies when necessary to keep the resource operating. The cost of such supplies will be determined by the Government and deducted from payment to the Contractor.

D.21.5 REMAIN OVERNIGHT ALLOWANCE (RON)

This is not applicable to travel to and from the incident Contractors are not paid per diem or lodging expenses to and from incidents.

When the Government cannot provide a campsite or meals, and if pre-approved by the user unit and properly receipted and invoiced, actual lodging expenses incurred by Contractors providing services under an Agreement whether for severity or incident responses are reimbursable. Food and drink would be based on maximum CONUS per diem rates minus any Government-provided meals. The maximum allowable rates, excluding taxes, are referenced in the Continental United States (CONUS) rates in the Federal Travel Regulations (FTR). The standard CONUS single occupancy lodging rate is referenced in CONUS. Double occupancy of hotel rooms may be required. Any associated lodging taxes are reimbursable as documented on the lodging invoice. If the resource is allowed to return to its dispatch location during off-shift time, RON allowance is not authorized.

The maximum RON that shall be allowed is based on the number of crewmembers shown on the shift ticket. Payment shall be included as an addition on the OF-286 Emergency Equipment Use Invoice. Documentation of authorization shall be included.

The Government, during demobilization and/or reassignment, may provide sack lunches to the Contractor personnel without charging the Contractor.

D.21.7 ORDER CANCELLATION

- (1) [] Are, [] are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;
- (2) [] Have, [] have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property; and

- (4) [] Have, [] have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.
 - (i) Taxes are considered delinquent if both of the following criteria apply:

- (B) *The taxpayer is delinquent in making payment*. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.
 - (ii) Examples.
- (A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.
- (B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.
- (C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.
- (D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).
- (i) Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126). [The Contracting Officer must list in paragraph (i)(1) any end products being acquired

** UNIFORM ALLOWANCE **

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition, April 2006, unless otherwise indicated. Copies of the Directory are available on the Internet. A links to the Directory may be found on the WHD home page at http://www.dol.gov/esa/whd/ or through the Wage Determinations On-Line (WDOL) Web site at http://wdol.gov/.
